COMPANY PROFILE

ABOUT US

"Since its establishment in Qatar in 1990, the company has emerged as a prominent manufacturer and supplier of construction materials across the nation. The company exclusively employs the latest version of automated machinery across its branches to ensure superior quality production."

"The Al-Asas Factories for Cement Project is a highly experienced organization with a production line that produces top-quality concrete blocks for walls and ceilings that meet the national standards approved by the Qatar General Organization for Standards and Metrology. In addition, the company specializes in producing mosaic and shabii tiles of various types and sizes. Furthermore, the company deals with a variety of materials, including marble, kerb stone, interlocking pavers, and different kinds of limestone and marble stones."

VISION

Our goal is to be the most reliable and efficient manufacturer in our industry, consistently delivering superior products and services to our customers.
